SATURDAY MORNING, FEB. 3.

The Struggle for the Capital. The whole of yesterday was spent by the House of Delegates in an ineffectual endeavor to agree on some point to which to remove the capital; and the evening found them as far from a choice as they were twenty-four hours before. The only difference was that Charleston had come up and passed Buckhannon and was about a neck ahead at the adjournment last evening. Considerable interest in the struggle is felt outside, and the lobby is crowded with specia-

tors—among whom, strange to say, not a lady has yet appeared.

There is a growing feeling even amongst the members that it might after all be wisest in this matter to adopt the practice of the old Dutch farmers, who always build their barns first and get them pretty well filled before they commence on the family

FREE SCHOOL LAW .- The joint com mittee on Education have been giving the School law a thorough revision, making some substantial modifications, and cutting out a good deal of verblage which encumbered the original law .-The work has been done at the sugges tion of Pref. White, State Superintendent, and in the main by him, in behalf of the Committee. It is proposed to re-enact the entire law in this expurgated and improved form; and a bill em-bracing it has been reported in the House. The views of the present Legislature on the subject of free schools are said to be liberal and enlarged.

THE NEW COUNTY OF MINERAL. The bill creating this county out of a part of Hampshire, has become a lawhaving passed the Senate on Thursday. The beautiful little village of New Creek, rendered historic during the war, is to be the county seat. The new county will be a very respectable one, not only in territory but resources.not only in territory but resources.—

How soon shall we have a "Potroleum" county down along the Ohio 1 and a "Gold" county carved out of Monongalia (or Ritchle?)

NEW RAILROAD.—We understand notice has been given of an intended application to the Legislature at its present session to charter a company who propose to build a railroad from the Baltimore road, at a point near Piedmont, up the North Branch Potomac, and one of its branches probably Stony run, to some point in Hardy or Tucker—the object being to open up rich coal fields in that region. The Messrs. Davis, of Piedmont, well known as enterprising and energetic gentlemen, are pushing the enterprise.

The words of our cotemporary apply here no doubt as aptly as to the immediate locality from which they come to us. There is another vice of which we might speak in this connection, and to which a gentleman of our neighborhood who is no less noted for his learnhood who is no less noted for his more weight of charteston is situated. Captain McWhorter adverted to the fact that while on the proposed lines of railroad, Buckhannon and other places named were possible points, Charleston is situated. General Howard, has been ordered to report for duty at Nashville, Tenn., as connected with the Freedmen's Bureau. General Ely is a gallaut officer, distinguished in the late civil war, and a gentleman of large experience and practical business habits. We refer to that "social evil" which now more than ever, since the war, seems to scourge the land and threaten the to scourge the land and threaten the consources of the leading of the very foundations of society. Licentiousness is scarcely less prevalent in tiousness is scarcely less prevalent in the rural districts than in the towns and cities. Every small neighborhood furnishes its examples of ruined fe-mals characters. Seduction is plied as a regular gratification by a class of young men and of youths just out of their boyhood. These persons are more nu-merous now than within previous recollection in every locality, and consequently their victims are more numerous. Under pretence of innocent purous. Under pretence of innocent pur-poses, often under promise of mar-riage, young girls are deliberately ruined by these fellows who are in many instances their nearest neighbors and their regular visiting acquaintan-ces. THE LIVING FORCES OF THE UNIVERS. THE TEMPLE AND THE WORSHIPPERS, by Hon. Gro. W. THOMPSON, of Wheeling.

A learned divine, speaking to a brother minister, said: "It is a vast system of thought. What wondrous visions of nature and life he must have had. It is strange that I lived a look in the same town with such a man, and knew him only in his outward relations as a indee and politician. His system explains and corrects many things herefore seeminging in contradiction." Senf free by mail on receipt of price. Price 8: 75-5-5-rasie by W.P. McKELVEY.
